

Figure 2

A schematic diagram of a flow system. An inlet pipe on the left is labeled 510 with an arrow pointing into a hexagonal chamber. The chamber has a top wall labeled 505 and a bottom wall labeled 507. Inside the chamber is a circular component labeled 501, which is shaded with a stippled pattern. A line labeled 506 connects the circular component to the right wall of the chamber. An outlet pipe on the right is labeled 512 with an arrow pointing away from the chamber.
